

CAPABILITIES (Oil & Gas Projects)

ACR has completed a full suite of cultural resource services for over 300 oil and gas projects, encompassing over 100,000 acres. We support all projects from seismic surveys to construction monitoring and everything in between.

Whether you require a single well survey or a 50+ well plan of development, ACR can fulfill the following cultural resource requirements:

- ◆ Class I file/literature search
 - ◇ Fatal/flow analysis
 - ◇ Well placement analysis
 - ◇ Infrastructure routing analysis
- ◆ Class III archaeological surveys
 - ◇ Seismic projects (2D and 3D)
 - ◇ Well locations
 - ◇ Staging areas
 - ◇ Compressor stations
 - ◇ Frac facilities
 - ◇ Access roads
 - ◇ Pipe and utility lines
- ◆ Archaeological site identification, recording, and evaluation
 - ◇ Prehistoric sites
 - ◇ Historic resources (e.g. archaeological sites, trails and roads, military sites, and structures)
- ◆ Visual effects assessments to historic properties
- ◆ Data recovery/ mitigation
- ◆ Guide companies through the Native American consultation process
- ◆ Construction monitoring
- ◆ Survey reports

WORKING WITH NATIVE AMERICAN TRIBES

We believe it is a privilege not simply a mandated requirement to work with our Native American counterparts on projects located on tribal lands. ACR has worked with numerous Native American tribal representatives.

ACR respects the traditional cultural properties and practices of Native Americans and works with them to ensure that project compliance work is completed with the utmost consideration of both the tribes and our oil and gas clients.

ACR regularly works with the following agencies:

Federal Agencies

- ◆ Bureau of Indian Affairs (BIA)
- ◆ Bureau of Land Management (BLM)
- ◆ Bureau of Reclamation (BOR)
- ◆ Federal Energy Regulatory Commission (FERC)
- ◆ Nuclear Regulatory Commission (NRC)
- ◆ Office of Surface Mining (OSM)
- ◆ U.S. Forest Service (USFS)

Other Agencies

- ◆ Department of Environmental Quality (DEQ)
- ◆ Department of Natural Resources and Conservation (DNRC)
- ◆ State Historic Preservation Offices (SHPO)
- ◆ Tribal Historic Preservation Offices (THPO)

ACR is qualified to work throughout the United States. Our main offices are strategically located to service the major western oil and gas markets.

ACR is permitted to complete cultural resource projects for all federal and state agencies in the following states:

- ◆ Colorado
- ◆ Montana
- ◆ New Mexico
- ◆ North Dakota
- ◆ South Dakota
- ◆ Utah
- ◆ Wyoming
